Dear Students,

I salute you all. I believe that your choice to be an Üsküdar University student is an expression of your confidence in us. I would like you to be certain that we are fully aware that we need to fulfill the responsibility due to the trust you have given us. We take the mission seriously of giving you an education above the world standards, and therefore we are excited and honored to be able to achieve this ideal.

Our efforts are developed based on **“Successful person, successful society; happy person, happy society”** principle.

With the awareness of preparing you as a global citizen of this rapidly changing and developing world, we are continuously rise with the power we receive from you in order to provide you a first class education. Our strategic goal is to become one of the top 500 universities in the world and improve above the world standards. Our aim is to train well equipped and highly qualified students who have healthy thinking ability, obtain awareness to the issues in Turkey and the world, are aware of professional ethics, and improve themselves and as well as the society.

In our University, we offer education with **more than 550** academicians and clinicians, **5** Faculties, **1** Vocational School of Health Services, **37** Departments, **61** Programs, **5** Institutes, over 30 Research and Application Centers and more than **50** laboratories and **4** Libraries.

Üsküdar University started its journal in 2012-2013 academic year with your faith and trust in us to provide better academic and clinically professional standards.

In 1998, we received the “Memory Centers of America” representation of Turkey and started our journey in “Techno-initiative in Health” and therefore, we established Üsküdar University in 2011 as a foundation university.

I wish you all to have a pleasant learning experience in your higher education journey and an academic year with our supportive academic team in every way you will need.

Prof. Nevzat Tarhan

Üsküdar University President

ACADEMIC YEAR CALENDAR (UNDERGRADUATE - ASSOCIATE)

Follow-up of the activities conducted at our university is performed according to the academic calendar determined by the University Senate. It is important that our students follow this calendar carefully and follow the dates.

USKUDAR UNIVERSITY
2022-2023 ACADEMIC YEAR CALENDAR
<https://uskudar.edu.tr/en/academic-calendar>

COURSE ENROLMENT

- Students sign up for courses through the student information system at the beginning of each semester and on announced dates with the support and approval of their advisors. (Freshman students will be automatically enrolled in their courses. Students will register course registration with their advisors from the second year.)
- Student first must register previous failed courses and new courses. The alignment of the courses must follow mid-semester course list. Other courses are taken instead of the courses taken out of the curriculum and are not opened.
- Semester course load cannot be more than one and a half times of the normal course load. (45 ECTC)
- In the case of an elective course, another course may be taken from the same elective group instead.
- Students who have completed GPA (Grade Point Average) with 3.00 or above and have completed all the courses in the lower semesters; from the beginning of the third semester, students with a GPA of 3.50 or above can take two courses with the approval of the advisor.
- Student who cannot complete the normal course load due to exemption from some courses in the curriculum, failure to attend prerequisite courses / semesters, participation in university exchange programs, can be registered with the related board decision from the following two semesters provided in case the normal course load is not exceeded (30 ECTC).
- Student may leave one or more courses in the add-drop period of the announced course in each semester with the approval of his / her advisor, or he / she can register to another course.

COMPULSORY ATTENDANCE

Students who do not attend at least 70% of the theoretical courses and at least 80% of the applications cannot take the final exam of that course. There is an obligation to attend 80% of the courses in the foreign language preparation program. Continuation of conditional courses are not required to be repeated. Repeated theoretical lessons provided, attendance is not required. The student is deemed to have continued attendance for the course that is considered to be equivalent to the course he / she has fulfilled in the case of course change that is made in the curriculum. The student has to continue his / her project, laboratory and application studies in the semester that he / she has failed to fulfill the attendance requirement.

GRADING SYSTEM

Relative evaluation system is applied when the success grade is determined. The relative evaluation system is a system that determines the level of success through taking into account the weighted average calculated according to contribution rates of midterm and final exams of the students in the semester (laboratory, short exam, homework, etc.) and the scores of the other students taking the course in the class. However, the following table values are used instead of the relative evaluation system in the classes where the number of students is below 8. The letter grades shown in the table below are determined by considering the grade equivalents and grade coefficients over 100 points:

Letter Grade	Weight Coefficient	Equivalent score over 100
AA	4.00	90-100
BA	3.50	85-89
BB	3.00	80-84
CB	2.50	75-79
CC	2.00	70-74
DC	1.50	65-69
DD	1.00	60-64
FD	0.50	50-59
FF	0.00	0-49

- AA, BA, BB, CB, CC, DC or DD students are considered to have completed the course.
- In addition to these letter grades, the following symbols are used:
- M (Exempt): Successful students are awarded the exemption exam applied to the relevant section of the courses determined by the Senate
- DZ: Students who fail to attend the course or fulfill their obligations related to course implementation are given. (DZ) note is considered as (FF) grade.

IN CASE OF FAILURE & COURSE RETAKE

- Students that receive (FD), (FF), (DZ), and (K) need to repeat the course.
- Student, who has a GPA of 2.00 or higher and has not failed courses in the curriculum, is considered successful.
- Student whose GPA is below 1.80, is placed in test status. Students with probation status can take a maximum of 2 courses from the next semester with 1.60-1.69 GPA and students with 1.70-1.79 GPA can take a maximum of 3 courses from the next semester until they exit the probation status.
- Students can take the courses they have already taken and succeeded in order to raise the grade. In these courses, regardless of the previous achievement grade, the final achieved grade becomes valid.
- The success grade of the courses taken again is taken into the semester where the course is taught in the chronological transcript and taken into account in the semester grade average calculation.

EXAMS

Exams consist of quizzes, midterm exams, final exam, single course exams, makeup exams and make-up exams.

Mid-Term Exam

- At least one midterm exam is given for the assessment and evaluation of a course.
- The average grade of the student is calculated by dividing the total score of the midterm exams by the number of midterm exams. The half number is increased to the whole number.
- If the attendance obligation is provided, the final exam can be taken.

Semester Final Exam

- Semester Final Exam is an exam that is taken in every semester as the semesters are included in the curriculum of the semester, and the semester is completed after the courses are completed within the period determined in the academic calendar.
- In order to take the semester final exam, the student is required to continue attend at least 70% of the theoretical courses and at least 80% of the applied courses, be successful in applications and have completed the projects.
- No excuse is accepted for final exams.

Resit Exam

- The make-up exams are held for the students who take the final exam and fail, or who do not take the final exam despite meeting the requirements for taking it, and who get the letter grades of **FF** or **FD** from the course.
- The students who fail the course with a letter grade of **DZ** due to absenteeism cannot take the make-up exams.
- The students with the letter grades of **DD** or **DC** can take the make-up exam, if they wish, by submitting petitions to the instructor of the course (to the term coordinators in the Faculty of Medicine and Dentistry).
- The grades obtained from the make-up exams will replace the final exam grades and will be used in the evaluation of success.
- The final exam grades of the students who do not attend the make-up exams remain valid.

Single Course Exam

- Students, who have only one course to graduate, can take the single course exam that will be available in 15 days following the decision of the board of the relevant department and the completion of the make-up examinations and providing the continuation of the course and semester work is conducted. Students who are not successful in the single course examination must take the course again and fulfill all their requirements.
- Students, who want to take a single course examination, can apply in written form for the period specified in the academic calendar. Students may take the one course examination on the announced date, if they pay the examination fee.
- At least DD grade must be received in order to be successful from one course examination.

How Exams Are Conducted

- The exams can be written, oral or both written and oral. How exams are conducted, will be announced to the students at the beginning of the semester by the lecturer. Exam dates are arranged and announced on the academic calendar.
- Students who do not have a valid student ID card for the current academic year will not be accepted to take the exam.
- The exam grade of the student who is not eligible to take the examination is considered invalid and is cancelled by the decision of the Board of Directors.

Make-Up Examination

- Students, who cannot attend the midterm exams due to their excuse, are entitled to a makeup examination by the decision of the relevant Board of Directors.
- The student, who cannot take the mid-term exam due to an excuse, should give the petition indicating his / her excuse within the following three working days after the completion of the midterm exams to the related Dean's Office.
- The relevant Board of Directors may give a makeup exam for the relevant course to the students whose excuse has been declared in the course of time.
- The make-up exam for the midterm exams is held within the semester, prior to the final examinations to be determined by the relevant Board of Directors

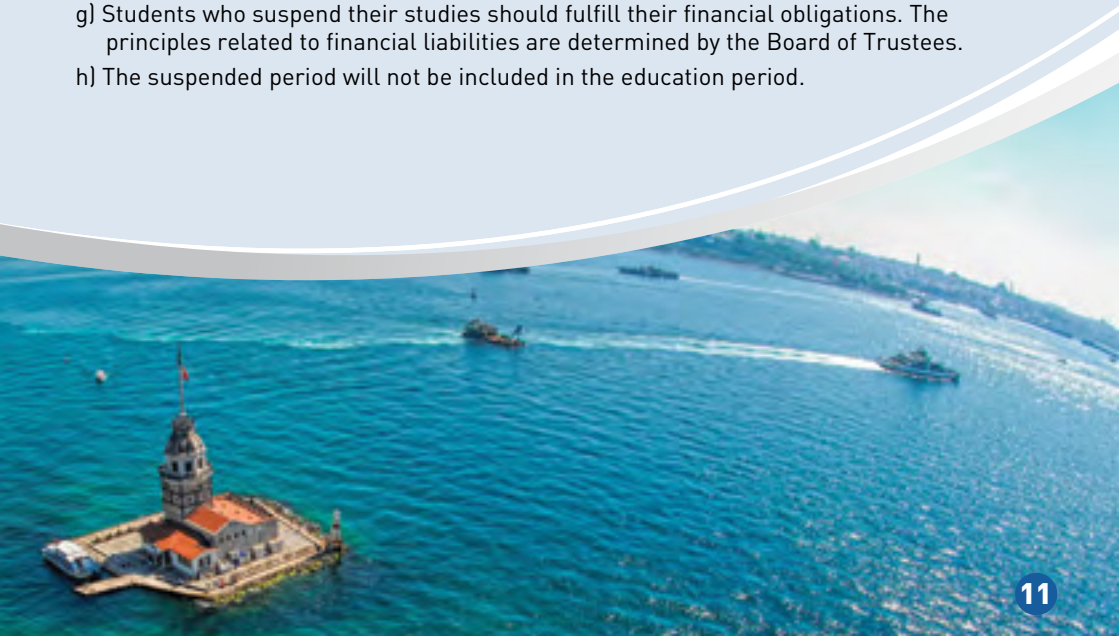

Objection to the Examination Grades and Error of Fact

- Students may object to the announced midterm and final exam grades in written form within three business days following the announcement of grades.
- The result of the appeal is determined by the relevant Board of Directors.
- If there is an error of fact in the exam results announced or in the semester final grade, the relevant teaching staff will apply to the Dean's Office.

SUSPENSION OF STUDIES

If the student has a valid reason accepted by the relevant Board of Directors, the studies may be suspended. Principles for suspension of studies are:

- a) Unpredictable issues such as disease, natural disasters, study abroad, military enlistment and when students willingly ask the Board of Directors to allow the suspension once for maximum two semesters. However, this period cannot exceed four semesters in bachelors and two semesters in masters.
- b) Students should complete the suspension of studies application form to the related Dean/Directorate.
- c) The students who request to suspend the studies should add the relevant documents that are relevant to their reasons to suspend; medical report, military service documents, disaster document by civilian authority and documents that prove the study abroad.
- d) In the decision of the relevant Board of Directors, the exact suspension period of the student is specified.
- e) Students who suspend their studies will not be allowed to attend any classes and/or take any exams during this period.
- f) Should there be a mandatory reason to suspend the studies during the semester, then suspension of the studies will be considered to be started from the beginning of the year.
- g) Students who suspend their studies should fulfill their financial obligations. The principles related to financial liabilities are determined by the Board of Trustees.
- h) The suspended period will not be included in the education period.

RE-REGISTRATION

- Students are required to register at the beginning of each academic year within the period specified in the academic calendar.
- At the beginning of each semester, students who have completed the normal education-training period and the maximum period of education should pay the tuition fee determined in accordance with the course credits within the periods specified in the academic calendar and then renew the registration.
- For students who do not renew their financial records every year within the period specified in the academic calendar, the default interest determined by the Board of Trustees is applied.
- Students who cannot be enrolled without a valid and valid reason within the specified period cannot enter courses and exams. This period is counted from the time of study. The identity card and discounted travel card of the student who cannot register, is not approved.

EXEMPTION FROM COURSES

The students who register with a lateral or vertical transfer to the departments and have previously been registered as full-time students in a Higher Education Program, may request exemption from courses they have taken before.

In order for this, students must apply for an approved, signed, sealed transcript, course content and a petition related to the Dean / Directorate.

These courses must be taken from a Higher Education Institution recognized by HEI. The exemption is discussed and concluded from the relevant Board of Directors.

The course exemption is made for one time only and is processed in the automation system together with the letter grade.

DOUBLE MAJOR – MINOR

Double Major Program (DMP)

The program allows students who successfully complete their undergraduate programs to take courses at the same time in a second undergraduate program they are interested in and to obtain a bachelor's degree.

Minor Program

The program enables students who successfully carry out their undergraduate programs to take a course and receive a certificate in a second undergraduate program they are interested.

Double Major / Minor programs are carried out in “**The Regulation on the Principles of Transition between the Programs of the Associate Degree and the Undergraduate Level in the Higher Education Institutions and the Credit Transfer between the Institutions of the Double Major**” and Üsküdar University under the provisions of the Double Major Program Directive and Minor Program Directive procedures. You can see the list of the departments, which can be taken according to the departments on our web page.

Application Requirements (DMP)

1. The student may apply to the second major program at the earliest third of the major program, at the beginning of the fifth semester at the latest.
2. The students whose GPA in the major program is at least 3.25 out of 4 at the time of application and who are in the top 20% of the students in the order of success in the related class of the major program can apply for the second major diploma program.
3. In order to be able to apply for a double major degree program, the student must successfully complete all the courses he / she has received in his / her major diploma program until the semester he / she has applied.
4. Students whose average GPA in the program is at least 3.25 but not in the top 20% of their achievement rank in the major program and who hold the base point not less than the base score of the relevant year in the double major program, may apply to the double major program.

Application Requirements (Minor)

1. The student may apply to the minor program at the earliest of the major program and at the beginning of the sixth semester at the latest.
2. At the time of application, the student's GPA should be at least 3.00 out of 4 in the GPA.
3. Students who have successfully completed all credited courses in the undergraduate program may apply to the minor program until the semester they apply for.

Disenrollment from Double Major

Students can be disenrolled in the following circumstances:

- a) During the course of the DMP, the second branch GPA may fall below 2.50 for one time only, while students who fall below 2.50 GPA for the second time will be disenrolled from DMP.
- b) Students who do not register for two consecutive semesters of double major program are disenrolled from DMP.
- c) Students who have been disenrolled from or withdrawn from the DMP for any reason cannot apply to the DMP again.

Double Major Extension

*Students who have obtained the right to graduate from the major program but cannot complete the second major diploma program from the year of enrollment to the second major diploma program; the maximum period is specified in paragraph (c) of Article 44 of Law 2547. **(Article 44 / c:** Students are required to complete their undergraduate programs, which are four years of study duration, within a maximum of seven years.)*

Disenrollment from Minor

The registration of the students will be disenrolled from the minor program in the following cases:

- a) In order for the student to continue his / her minor program, it is mandatory that the grade average in the major program is at least 2.30. The registration is disenrolled from the minor program of the student who cannot provide this condition.
- b) Students who do not register for two semesters consecutively will be disenrolled for the minor program.

Minor Extension

The duration of education for students who have obtained the right to graduate from the major program but cannot finish the minor program can be extended for a maximum of two semesters with the decision of the board of the related faculty.

LATERAL TRANSFER

- a. Transfer applications can be made at the beginning of the second semester and at the beginning of the third semester in the associate degree programs and at the beginning of the second and third classes in the undergraduate diploma programs.
- b. For lateral transfer, it is mandatory that the student have at least 2.00 out of 4 of the overall weighted average of the period in which the student has completed the program.
- c. In order for a horizontal transfer application to be made between diploma programs that accept students at the same level but different centralized placement score types within the university; the center's placement score in the type of the score applicable to the diploma program that the student wants to pass by the year the center entered, it is required that the diploma programs of other universities in the country equivalent to the diploma program they wish to pass are not less than the lowest base score.
- d. Transfer from primary to secondary education can be made within the same diploma programs.
- e. Evening education students who graduated from a higher level by entering the first ten percent of the class may transfer to daytime education diploma programs within quotas.
- f. In order for the student to be able to apply for lateral transfer, he / she must not have any disciplinary action in the record history.
- g. Being disenrolled does not constitute an obstacle to have the right of transfer.
- h. Transfers are conducted within the framework of the provisions of the "Regulation on Transition Principles between Higher Education Institutions with Associate and Undergraduate Programs".
- i. In order to transfer to the diploma programs whose language of education is English; it is necessary to have passed or be exempted from the English preparatory class. Students who have not studied English preparatory class must pass the foreign language proficiency exam or national or international examinations with validity. The University must have obtained the points that it deems sufficient and must be documented during application.

COMPULSORY SUMMER INTERNSHIP

The completion of compulsory summer internship in the institution determined by the student for graduation of the student and the compulsory summer internship work must be accepted by the faculty / college / vocational college internship commission. The student who is unable to complete the compulsory summer internship even though all the courses in the course schedule are successfully completed, the student must renew his / her enrollment on the dates specified in the academic calendar at the beginning of each semester during the normal academic year. In this case, the student pays ECTS hours for each semester, as a compulsory summer internship work, determined by the Board of Trustees.

HIGH HONOR AND HONOR STUDENTS

At the end of each semester, students who have completed all the courses of that semester and have between 3.00-3.49 GPA are placed on the honor list and students between 3.50- 4.00 GPA are on the high honor list. Honor or High Honor statements is stated in the diploma at the end of the undergraduate or undergraduate education of the students with a related general weighted average of grades.

ACADEMIC ADVISING

For each student who makes the official enrollment in the University, an academic adviser is appointed by the board of directors from among the full-time faculty members of the department on the proposal of the relevant department presidencies. Throughout the course of the student, the academic adviser follows the student's academic development, guides and helps the student. Students are required to register at the beginning of each semester with the approval of the academic advisor.

Üsküdar University Department of Foreign Languages FOREIGN LANGUAGE PREPARATORY EDUCATION

Dear Students,

You are now a part of Üsküdar University. We are here to guide you towards becoming autonomous agents in a life-long learning process. We are here to empower you to take ownership of your own education, your aims and your dreams. Now is the time to start your intellectual journey and fill it with invaluable memories. Now is the time for equipping yourself with 21st Century skills. Now is the time for finding fun and excitement in exploring your academic tastes.

Pearson Assured

Üsküdar University Department of Foreign Languages Preparatory education system and operations are accredited by Pearson Assured, an independent international quality criterion. Our students have a strong beginning in their careers due to the international recognition of the Pearson Assured certification

Our Mission

The aim of Üsküdar University Prep School is to provide the students with the necessary English grammar and academic skills to enable them study in faculties whose language of instruction is English. In addition, it provides optional education for students who will study in Turkish departments.

***"One language sets you in a corridor for life.
Two languages open every door along the way."***

Frank Smith

Our Vision and Goals

Our Program aims at developing students' linguistic accuracy and range in English language as well as introducing a critical approach to thinking, reading, speaking and writing in an academic environment. The students will be equipped with the survival skills they need not only during their under-graduate studies but also after they graduate and become active agents in academic, professional and social environments.

Our Program has adopted the teaching philosophy which is based on the belief that a good teacher should empower students to take ownership of their education. This involves enhancement of skills and facilitation of students' learning process rather than simplistic transfer of dry information. The instructors, in this program, are thus guides or facilitators coaxing students on an intellectual journey, to help them develop curiosity about language and culture, and to give them the opportunity to confront new ideas and different points of view. This; we believe to be the best way to motivate students to improve their language, learn to think critically to improve their minds and become autonomous agents. We employ learner-centered approach to develop our students' academic, linguistic and critical thinking skills. To this end, we make sure all our classes are based on the principles of

- learner autonomy,
- life-long education,
- academic honesty,
- criticality,
- democratic learning environment,
- learner-centered constructivist methodology,
- instructor as facilitator.

ÜUFLD Preparatory Program Educational System

Üsküdar University offers one of the best and highest quality preparatory programs to our students with its expert and experienced academic staff. Our aim in foreign language education, which is an essential part of a quality education based on the academic and social functions it serves, is to support

our students in following the latest developments in their fields and continue their undergraduate programs in English. Our students receive modular (A1-A2-B1-B2-C1) training in line with the European Language Teaching Common Framework.

“Learning another language is not only learning different words for the same things, but learning another way to think about things.”

Flora Lewis

Multi-Purpose English Program

The Preparatory School offers C level language program for students who want to further their studies in English even if they have passed the proficiency exam. At this level, we offer English for Specific Purposes (ESP) program which meets students' needs in English at faculty level. At this level, we employ Problem. Based Learning and encourage detailed research to resolve interdisciplinary problems and write academic reports to offer solutions. The process includes

stages from gathering data from a variety of sources to producing a well-researched academic report with a bibliography page following the formal academic register and rules (MLA, APA). Specialized English programs (Academic Coaching/Professional English) are offered for the students who reach B level in addition to their regular English classes to familiarize them with the faculty- related vocabulary/concepts/arguments in their chosen field of study.

"Quality" Priority in Higher Education!

Our University bases its quality policies on Turkey Higher Education Qualifications Framework's quality standards.

You can read information on our quality studies and accreditations at <https://kalite.uskudar.edu.tr/en>

Student Assessor

Students also participate in the teams established by the Higher Education Quality Council for the evaluation of universities.

You can follow from our website and announcement boards to take part in evaluation teams on behalf of our university.

REGULATIONS AND GUIDELINES

All operations and activities in our University are carried out in line with the provisions of the relevant regulations and directives.

PLAGIARISM

Students are required to state clearly and in detail the sources of information they convey directly or indirectly in academic studies, publications, presentations, examinations and assignments during their education in Üsküdar University. Any information conveyed without stating the reference of the source, including its location, form and purpose, should be included in the scope of plagiarism and require the implementation of the prescribed disciplinary processes.

The main reason to execute Üsküdar University Student Rights, Responsibility and Behavior Principles is to ensure that the students' relations with the University, the limits of their rights, responsibilities and privileges are determined during their studentship at Üsküdar University.

Law on Protection of Personal Data

As Üsküdar University, we respect and give importance to the security of the private life of all individuals. In this context, we protect the information we receive from you in accordance with the law by storing it safely.

You can visit <https://uskudar.edu.tr/en/uskudar-university-privacy-policy> for more information.

SUMMER SCHOOL

Summer School is the last module of the English Preparatory School (module 5). The program lasts for 7-8 weeks.

STUDENT EXCHANGE PROGRAMS

<http://erasmus.uskudar.edu.tr>

Üsküdar University was awarded with the Erasmus Charter for Higher Education in 2013 by the European Commission. Erasmus includes various activities such as exchange students and faculty members with universities abroad, organize joint seminars and conferences, organize joint courses and multidisciplinary activities. In this context, the students of our university will be able to participate in Erasmus Internship Mobility within the scope of Student Exchange Programs in 2013-2014 academic year and they have started to take advantage of internship opportunities abroad and Erasmus learning mobility in 2014-2015 academic year as well as 1 year or 1 semester abroad learning opportunities.

Students who want to participate in Student Exchange Programs are placed in universities they prefer by evaluating their grade point average, language exam success and their CV. Students who are studying abroad for a term within the scope of Student Exchange Programs, they are not obliged to pay any tuition fee except the payment they make to Üsküdar University. Students benefiting from the programs have to meet their dormitory, travel expenses, living expenses and visa expenses from their own budget in the country and institution where they are going to study.

There are currently 428 Erasmus agreements in 20 different European Union countries that include England, Germany, Italy, Spain, Netherlands and the Nordic countries.

Within the Erasmus Program, students who are able to study at partner universities in Europe receive study grants for the period they are studying. This grant meets the costs of the students at a significant level in the countries where they are going.

Internship opportunities are provided to students of Üsküdar University by consortiums in leading industrial establishments and enterprises abroad by establishing the Erasmus European Internship Consortium in cooperation with Turkey's leading Non-Governmental Organizations.

LIBRARY SERVICES

E-library

It is in use of e-library students composed of free-to-use open PC and iMac computers to support students' research and increase their information use.

Library

Üsküdar University Libraries; İbrahim Tarhan Library in Main Campus, Müzeyyen Tarhan Library in Çarşı Campus, Namık Kemal Library in South Campus and Ayhan Songar Library in Faculty of Medicine NP Campus aim to provide all kinds of information resources that students, academic and administrative personnel will need in educational, research activities and provide them with the latest facilities.

Books, journals, newspapers, e-books, e-journals, audio cassettes, CD-DVDs are placed in an open shelf layout system in a library with a sort order aligned with the "Library of Congress Classification System".

In addition to wireless internet access, there are 1502 square meters of space, a library with a seating capacity of 470 people, approximately 45,000 printed sources, over 27,000 e-journals, 21,321 e-books, 22 database subscriptions, over 900 dissertations and access to all these resources on the internet, our users can borrow 3 books from our library for 15 days.

The resources that are not available at our university are brought from other universities with the interlibrary cooperation of ILL (Inter Library Loan), and users' requests from ULAKBİM Document Supply System and user requests such as thesis with TÜBESS system are met.

SOCIAL LIFE & SOCIAL ACTIVITIES

Directorate of Health, Culture, Sports

HCS Directorate is the unit that provides social and cultural communication and coordination between the academic and administrative administrations of our University and our students. It provides counseling services to our students in health related needs, social and cultural organizations. It carries on with the activities for our students continue to work for their social, cultural and sportive development for their academic education along with the Student Council, faculty and department representatives and student clubs.

There are 81 active student clubs and 5,000 students who are active in the scientific, social, cultural, sports and artistic activities within Üsküdar University, our Director of Health, Culture and Sports.

Student Council & Clubs

Our students elect both their departmental representatives and faculty representatives among themselves. The President of the Student Council is appointed by the vote of the faculty representatives. The President of the Council and faculty representatives form the student council. The Council represents all of our students both against the university administration and against other public or private institutions. HCS coordinates general projects and organizations for our students.

University Part-Time Work and Food Scholarship Opportunities

Our university provides financial support to our students who are in need and part-time work carried out with the aim of enabling them to increase their professional knowledge and skills by working in their free time as well as food scholarships will be announced by the University's Health, Culture and Sports Directorate at the beginning of each academic year.

Health Services

General health services, emergency medical care, and nursing services are provided to our University students and where necessary, students and staff are directed to full-fledged hospitals

Psychological Counseling and Guidance Services

The aim of the Psychological Counseling Unit is to help students' individual, social and academic development, facilitate adaptation to university and dormitory life as well as to acquire the skills necessary to cope with the problems that may arise. Students who apply to the Psychological Counseling Unit receive individual counseling and therapy services free of charge in line with their needs and requests.

Our students, who want to benefit from psychiatric services in NPGRUP Psychiatry services, should make an appointment from Psychological Counseling Unit in Üsküdar University. Our students will be able to benefit from the discounts we provide whether the referral process is approved by our expert psychologists after the preliminary meeting.

Student Lockers

Our campus has student lockers where you can leave your personal items. Charging and distribution of lockers is done by the Directorate of Health, Culture, Sports and the collected income is used for the benefit of the students. Lockers can be used from the beginning of the autumn until the end of the summer. Students who wish to use lockers must apply to Directorate of Health, Culture, Sports.

Solution Center

Our Solution Center's aim is to focus on the outcome with a trustworthy and easily accessible approach to management in order to pass on the opinions and recommendations of our students. The Solution Center offers solutions to the demand and the proposal. We have adopted the mission of increasing the efficiency of bilateral communication through following the developments in our university closely, as a bridge between the student and the University administration.

Solution Center Contact

You may personally contact the Solution Center Main Campus, South Campus and Çarşı Campus Directorate of Health, Culture, Sports in person, or call +90 216 400 22 22 (Extension: 5088 - 2835 and 2828), or contact cozummerkezi@uskudar.edu.tr

Career Center

Üsküdar University prepares students to life...

The Üsküdar generation is emerging that is working, thinking while putting production to the center of their lives. The Career Center, which recognizes the importance of practice, and how much research and observation is crucial for the young people's experiences; continues to offer opportunities to its students and graduates by adding new collaborations with the countless business associations every passing day.

Our students' preferences can be achieved through our research centers, our practice laboratories, our outpatient clinics and our last hospital to be opened in the new academic year within our University and our NPİSTANBUL Brain Hospital. We offer application opportunities through our experienced academicians, each of whom makes a difference in their own field, their experience sharing, knowledge transfers and opinion leadership.

Directorate of Career Center offers the following activities to our students and more;

- Practice / field course actions
- Voluntary and compulsory internship procedures
- CV preparation • Interview techniques
- Career Day events and opportunities to meet with industry-leading companies.

"Life is a Choice" for us.

Girls' Guesthouse

The guesthouse is located within 200 m walking distance to the Center Campus and has a capacity of 71 students. There are also private dormitories for male and female students in the surrounding area. The contact information of these dormitories can be accessed from the websites of the District National Education Directorates.

INFORMATION TECHNOLOGIES

The Information Technologies Directorate is providing an infrastructure service that provides students with easy access to information through wired and wireless internet access. Our e-mail and in-house communication programs work smoothly and we provide e-mail service to our students with Microsoft infrastructure. We also provide our students the possibility to use i-Mac and Windows operating systems together in our e-library.

In our campus, fiber internet technology is used to access the internet from every point via Wi-Fi. Our students who are able to use the internet at the same time while researching in our library can access the information faster.

Our internet speed has been restructured to 500 megabits after the last update. ULAKNET infrastructure is also integrated into our systems.

In our campus, our servers are served through virtual servers and our telephone lines reach Telekom stations through fiber cabling and PRI technology.

Our students enter the school safely using ID cards and tournaments at the entrances of the buildings. Thanks to our 42-inch screens on every floor, we keep our students informed by publishing up-to-date announcements.

There are 10-inch screens on the entrance doors of our classrooms. On these screens, it is automatically shown which class is in that specific class and how many students are involved.

**Student
E-mail
System**

Internet Access

Our students will use their e-mail addresses and e-mail passwords as user names to connect to the internet. Our students can access the information documents with pictorial descriptions of the settings they need to make according to the structures of the devices they use.

Üsküdar University defines an e-mail address for all students enrolled at our University.

Our students will use this e-mail address for communication with our University throughout their education lives. Necessary announcements for

our students to receive their e-mail address will be made during the new academic year. Students who forget their passwords should apply to Directorate of Information Technologies.

The student's e-mail address can be accessed from <http://mail.st.uskudar.edu.tr>

R&D UNITS AND LABORATORIES

ÜSKÜDAR UNIVERSITY HAS MORE THAN 50 LABORATORIES.

Üsküdar University offers practical training with more than 50 laboratories on 4.000m².

In Üsküdar University laboratories, practical training is given in many subjects on behavioral sciences such as brain stimulation, neuroimaging, health physics, software psychology etc. Additionally, there is a clinical infrastructure that is equipped with the latest technology for studies on the field of computer engineering such as "Brain-computer interface (BCI)" and artificial intelligence.

In addition to the training offered in Üsküdar University laboratories with specialized academic staff, our students also have the privilege to practice in Turkey's first neuropsychiatry NPISTANBUL Brain hospital and its medical centers.

Üsküdar University continues with laboratory and R&D investments, and conducting work to realize Turkey's first Brain Park.
