

BASIC CONCEPTS

Concept	Definition	Access Link to Website
STIX (Student Teacher Information Exchange)	It is our website developed by Üsküdar University Software Planning Unit and used to share announcements, documents (limited to 500MB) or homework with our students. Our students use the system widely and effectively. STIX is going to be used to communicate between the lecturers and students during the distance education process. Course materials will be shared via LMS or Zoom .	https://stix.uskudar.edu.tr/
LMS (Learning Management System)	It is our virtual classroom application. As it is integrated with the Proliz (Pyrolysis) System, the courses taken by all our students are accessible when login to the system. During the distance education process, our students and lecturers will frequently carry out their education processes through LMS. Lecture notes and documents may be shared with our students and also the students and lecturers can make synchronous lessons. It is also possible for the students who cannot attend the courses to follow them asynchronously later.	https://lms.uskudar.edu.tr/ User name: Student Number Password: OBS password
Zoom (Synchronous Meeting Software)	This programme is used to make synchron meetings / lessons with the students. After creating a membership at https://zoom.us/ , you can join the course synchronously with the link to be sent by the instructor of your course. For the students who cannot attend, the course video will be shared in STIX by the relevant instructor as well.	https://zoom.us/
